

....Wild Trails at Ranthambore National Park....

Ranthambore National Park is one of the largest national parks in northern India which is having 275 km² core area and 392 km² including buffer zone. It is situated 215 to 505 meters above sea level in Sawai Madhopur district of southeastern Rajasthan, about 180 km from Jaipur, which is also the nearest airport. The nearest town and railway station is at Sawai Madhopur, about 11 km away.

Ranthambore was established as the *Sawai Madhopur Game Sanctuary* in 1955 by the Government of India, and was declared one of the Project Tiger reserves in 1973. Ranthambore became a national park in 1980. In 1984, the adjacent forests were declared the *Sawai Man Singh Sanctuary and Keladevi Sanctuary*, and in 1991 the tiger reserve was enlarged to include Sawai Man Singh and Keladevi sanctuaries.

Ranthambore wildlife sanctuary is known for its tigers and is one of the best places in India to see these majestic predators in the jungle. Tigers can be easily spotted even during the day time. A good time to visit Ranthambore National Park is in November and May when the nature of the dry deciduous forests makes sightings common. Its deciduous forests were once a part of the magnificent jungles of Central India. The park lies at the edge of a plateau, and is bounded to the north by the Banas River and to the south by the Chambal River. There are several lakes in the park. It is named for the historic Ranthambore fortress, which lies within the national park. The terrain is dense tropical dry forest, open bushland and rocky terrain interspersed with lakes and streams and is known for its tiger population, and is one of India's Project Tiger reserves. Other major wild animals include leopard, nilgai, dhole, wild boar, sambar, hyena, sloth bear and chital. It is also home to wide variety of trees, plants, birds and reptiles. Ranthambore is also the site for one of the largest banyan trees in India.

Being considered as one of the famous and former hunting grounds of the Maharajas of Jaipur, today the Ranthambore National Park terrain is major wildlife tourist attraction spot that has pulled the attention of many wildlife photographers and lovers in this destination. Ranthambore is also counted as the famous heritage site because of the pictorial ruins that dot the wildlife park. Certainly, a visit to Ranthambore National Park is a treat for every wildlife and nature lover. The time spend on watching tigers roaming around, verdant greenery, a gamut of other species of chirpy birds and animals is priceless and worth enough to be explored at least once in a life. The Best Season to visit this park is From January to June. The park remains closed during monsoon season (July - August).
